

Muhammad-Tahir Sanuth

Front-End Engineer

Lagos, Nigeria (Remote) · Mtz5prif@gmail.com · (+234) 810-234-2878 · GitHub: Muhammad-Tahir-S

SUMMARY

Front-end engineer with **~4 years** building **Next.js** and **React** experiences with **Tailwind CSS**, component libraries, and **design-system** discipline. Strong in **pixel-accurate UI from Figma**, modular components, and polished client-facing web work for remote international teams. Combines craft-focused implementation (Storybook, reusable primitives, animation where it adds clarity) with fast iteration—including **AI-assisted development** with Cursor in daily workflow.

PROFESSIONAL EXPERIENCE

Codygo — Front-End Engineer

Aug 2022 – Present · Ramat-Gan, Israel (Remote)

TypeScript SaaS shop delivering client web products (codygo.com).

- Built and extended a **Chakra UI design system**—buttons, inputs, typography, tables, tooltips, and shared layout primitives used across product surfaces.
- Implemented **UI to Figma specs**—campaign flows, list tables, charts, and launch-campaign UX with design-system colors, typography, and validation patterns.
- Ship production changes on a **React, TypeScript, Tailwind CSS**, and **Vite** monorepo; integrate **Storybook** for component documentation and review.
- Maintain **Addressable**, **Worknet AI**, and **Datafy** frontends in parallel—high-quality UI, architecture input, and **component/integration tests**.
- Extended **Datafy** cloud-ops UI (datafy-io/frontend-mono): table UX, chart formatting, and Tailwind/Chakra-aligned data surfaces.
- Landed production fixes via **Git PR workflow** on addressable-io/a9e-mono (tenant switching, campaign guardrails, dashboard UX).

Stack: React, TypeScript, Tailwind CSS, Chakra UI, Vite, Storybook, Jest, Next.js (product-dependent)

Tempo — Front-End Engineer (contract)

Mar 2025 – May 2025 · Remote · tempo.new

Prompt-driven design platform. Contract under [metzinc](https://metzinc.com)/* repos.

- Developed **Next.js** workflow runtime and full-stack incident/kanban apps ([metzinc/workflow_nextjs_20250520](https://metzinc.com/workflow_nextjs_20250520), [metzinc/tempo-full-stack-incident-mgmt](https://metzinc.com/tempo-full-stack-incident-mgmt)).
- Refactored UI with **Radix** primitives and **dark mode** on incident-management surfaces ([metzinc/Tempo-Main-Incidents](https://metzinc.com/Main-Incidents)).
- Shipped workflow **designer/canvas** features—forms, templates, panel layout, theming ([metzinc/workflow-designer-20250425](https://metzinc.com/workflow-designer-20250425)).
- Built a **full-stack internal dashboard in two weeks** for delivery coordination.

Stack: Next.js, TypeScript, Tailwind CSS, Radix UI, Supabase

ZeroComplex AI — Front-End Lead

Aug 2023 – Apr 2024 · Lagos, Nigeria (Remote)

- Led frontend for a **team of three** on **Next.js** (App Router and Pages Router), **TypeScript**, and **Tailwind CSS**.
- Partnered with product to **review designs**, plan sprints, and ship **weekly releases** with presentation-ready UI for **12 weeks** of investor demos.
- Ran **code reviews** and pair programming; co-planned frontend architecture with backend.

Pramie Technologies — Front-End Developer

Feb 2022 – Jan 2023 · Lagos, Nigeria (Remote)

- Built **client websites and web apps** to spec with **React**, **Next.js**, and **TypeScript** in a **7+ developer** team.
- Executed **Bloco** website migration and maintained **First Active 365**—client delivery with peer **code reviews**.

SELECTED PROJECTS

Personal portfolio — Marketing site

TypeScript, React · Muhammad-Tahir-S/portfolio

- Implemented responsive layout and **GSAP** navigation/section animations; refined server/client rendering consistency.

Feedback Forum — Full-stack feedback app

TypeScript, React, Tailwind CSS, Shadcn/ui · Muhammad-Tahir-S/Feedback-Forum

- Initialized stack with **Vite**, **Tailwind**, **Shadcn**, and **Supabase**; built post create/list/sort and filter UX.

EDUCATION

Federal University of Agriculture, Abeokuta — BSc, Electrical and Electronics Engineering

May 2015 – Jan 2021 · Abeokuta, Nigeria

TECHNICAL SKILLS

Core: JavaScript, TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS

UI & systems: Shadcn/ui, Radix UI, Chakra UI, Storybook, design-system components, Figma-to-code implementation

Animation & polish: GSAP, view transitions, responsive typography and layout

Tools: Git/GitHub (branching, PRs), Jest, Supabase, Cursor (AI-assisted development)

Practices: Component-driven UI, accessibility-aware implementation, remote collaboration with design and product

INTERESTS

Creative writing, illustration, football, table tennis, anime, fantasy novels
